PDO THREAD TREATMENT

PDO thread lift is a form of minimally invasive facelift. The benefits compared to traditional facelift include that PDO thread lifts are much safer, far less costly and the downtime is shorter. The treatment is particularly useful to improve sagging skin of the lower face, where botulinum toxin and dermal fillers are less effective. The treatment is carried out by Dr Keli Thorsteinnsson.

Chin (under) £500

Lower Eyelids £500

Lower Face/Jowl Lift £1,500

Lower Face/Jowl Lift and Nasolabial £1,900

Neck Lift £1,100

PLEXR PLUS

Plexr Plus is ground-breaking treatment for facial rejuvenation. It is particularly useful for baggy or wrinkled skin around the eyes, an area which can be difficult to treat without invasive laser or surgery. Plexr Plus can also be used to remove skin lesion and treat other wrinkles, e.g. around the mouth area.

Upper OR Lower eyelids £450

Upper AND lower eyelids £695

Smile / Perioral lines £295

Skin lesion removal from £220
